- (10:30a.m. - 12:30p.m.)
- (1:30p.m. - 3:30p.m.)

Description

Trade fair and conferences organizer

Our trade fairs, conferences and media allow us to create high-quality platforms for networking.

We work to open up new international markets and business contacts. Worldwide contacts are a necessary foundation for our customers to establish their position on the market and benefit from the growth of the sector as a whole. We are linked with several large regional, national and European networks that help benefit several of our partners. At the same time, we continually work to expand the reach of these networks and are always looking for new partners - reaching out to trade associations, NGOs, ministries or trade fair locations.

We are always on the lookout for others working towards our common goal!

Communication with our partners and customers is very important to us. That is why we prepare all of our communications internally, develop cross-media marketing strategies and strive to create several different contact points with our customers.

Our communications in the area of renewable energies, energy efficiency, and waste and water management have a dedicated reader base and offer valuable information that helps to give our customers direct access to interesting target groups.
